# THE TEKNEK FASTPAD

Leading edge ergonomic design combined with Teknek's innovative Nanocleen™ cleaning core has created the first Silicone Free semi automatic contact cleaning workstation.

An ITW Company

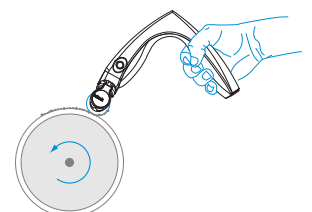

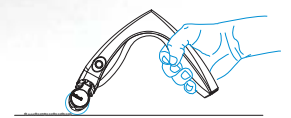

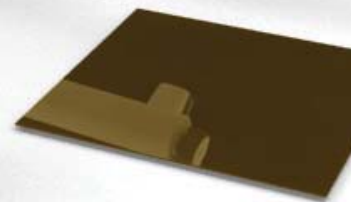

## BENEFITS

- + **Increased operator output – 25% or higher**  
Using the FastPad Nanocleen™ will remove unnecessary operations during the cleaning process. Cleaning process becomes much quicker to complete.
- + **Increased benefits with no extra cost**  
The FastPad is 50% more efficient than other systems. The cost of ownership is the same as an average pad system.
- + **Cleaning assurance, peace of mind**  
Simple to set up-no operator training required-roller always clean and ready to be used at maximum efficiency.
- + **Cleans what others leave behind**  
The Nanocleen™ cleaning core improves the cleaning efficiency of the FastPad compared to other roller and pad systems. It removes the debris that others leave behind.
- + **Leaves no Trace**  
Nanocleen™ cleaning core (roller and adhesive) is the only silicone free manual cleaning solution available:-  
N.B. All pads are constructed using a silicone release liner.
- + **Anti Static Work Station**  
The FastPad Nanocleen™ roller and handle assembly is static dissipating and subjects parts to 10 times less static than traditional hand rollers.
- + **Cleanroom Compatible**  
Silicone free cleaning core with filmic based adhesive making the FastPad the only system suitable for use inside a cleanroom.

## FASTPAD WORKSTATION

- 1- Sheeted Nanocleen™ Adhesive
